About the University

Bharath University was established under the aegis of Sri Lakshmi Ammal Educational Trust with the aim of imparting higher knowledge in science and technology. BIST was started in the year of 1984, and acquired deemed to be university status in quality education.

About the Department

The Department of Industrial Biotechnology was started in the year 2003, has teaching and research programmes which encompass various basic and applied aspects of modern biotechnology. The main aim of the Department is to provide academic training and conduct research in the interdisciplinary areas of biotechnology with a particular emphasis on extending the knowledge generated from these studies towards the development of technologies of commercial significance.

About the Conference

Biotechnology is one of the most promising new approaches to hunger management, food resource conservation, and cost reduction. Today, the application of biotechnology to industrial processes is not only transforming how we manufacture

products but is also providing us with improved food products that could not even be imagined a few years ago.
